Following the success of the 2024 Pacific GIS and Remote Sensing User Conference, it is clear, that our community's commitment to advancing GIS and Remote Sensing in the Pacific remains as strong as ever.

This year's conference - we are proud to present an exceptional lineup of thought-provoking sessions, learning and networking opportunities that will inspire and engage our attendees. The theme for this year's conference is "Building and Enhancing Geospatial Networks in the Pacific Islands".

We are excited to continue working together with our partners and welcome our sponsors - ensuring you receive maximum value and exposure. As always, every conference is not possible without your generous support and together, we can make this year's conference a success.

Vinaka Vakalevu,

Bradley Eichelberger
Chair, Pacific GIS & Remote Sensing Council (PGRSC)

SUPPORTING THE PGRSC

On behalf of the Pacific GIS & Remote Sensing Council, we would be honoured to establish a partnership to strengthen collaboration in our interest as an organization to promote and develop GIS and Remote Sensing in the Pacific Region.

Our conference continues to grow each year, with increasing numbers of attendees, speakers, and sessions — a testament to the value our past sponsors have brought and to the importance of the industry itself. In addition to our annual conference, we have expanded our capacity-building efforts through the launch of a knowledge-sharing and technical webinar series, and we are also developing additional training and software certification programs.

We are proud to share this success with you and remain committed to making each conference even more impactful. Your support is vital to our continued efforts, and we look forward to partnering with you to create an exceptional experience for all our attendees.

If you are interested to become a partner, sponsor or establish an MOU with the PGRSC, we would be most grateful to accept your letter of interest sent to pgrsc@pgrsc.org.
